Cottonwood Fire & Medical Department Provides CCC-CPR Training to Clarkdale-Verde District Kiwanis Club

On Thursday, August 27, 2015, Cottonwood Fire Department (CFD) personnel, provided "Continuous Chest Compression-Cardio Pulmonary Resuscitation" (CCC-CPR) training to members of the Clarkdale-Verde District Kiwanis Club. CCC-CPR is an easily learned, potentially life-saving procedure, administered to cardiac arrest victims. CCC-CPR instruction was provided to about 15 club members. In addition to the CCC-CPR, attendees were also taught how to use an "Automated External Defibrillator (AED). The AED is a device designed to be utilized by bystanders to deliver a potentially life-saving "shock" to victims of sudden cardiac arrest.

The class was approximately one hour in length. Attendees received instruction via lecture, DVD and "hands on" training on mannequins. All attendees were excited to learn these subjects and provided very positive feedback to our personnel.
